Notes: Key of Cm, chord shapes adjusted for
capo 3

Intro: Am//// //// //// ////

//// //// //// ////

G//// Dm /// Am//// ////

Am////

Let me hear your second tongue

G//// Am//// ////

The one your lonely hours know

Am////

Let's swing with eyes wide open

G//// Am//// ////

While the glaring trumpets blow

G////

Let's turn the lantern white

Dm//// Am//// ////

On our spooning, wounded knees

C//// G////

Let's elevate Achilles while there's light enough

Am//// ////

to please

Chorus:

C//// G////

My love, my love

Am//// ////

These are holy, holy times

C//// G////

My love, my love

Am//// ////

These holes are quick to find

C//// G////

Like a newborn baby

Am//// ////

Like a newborn baby come blind

C//// G////

She's still smiled on

Am//// ////

She's still smiled on

Interlude: C//// G//// Am//// ////

My words were turning tender

Your feet were turning cold

You were striving for defection

A perfect sail for you to hold

But your vital ocean isn't endless

And there's waves beyond the bay

Let's elevate Achilles and drop an anchor

where we lay

Let's elevate Achilles and drop an anchor

where we lay

Chorus

Interlude: C//// G//// Am//// ////

I love your hungry mind

I love your pride in all you've done

But what we've learned and what we've laid for

On occasion was sour on our tongues

And I love you with my vices

And all the nights I won't erase

Let's elevate Achilles and put our faith i

n his embrace

Let's elevate Achilles and put our faith

in his embrace

Chorus

She's still smiled on, She's still smiled on (3x)

Outro: C//// G//// Am//// //// (repeat as desired)
