Notes: Key of B, chord names adjusted for capo 4

Intro: Em/// D/// G/// /// (2x)

Em/// D/// G/// ///
We were winter's favourite lovers
Em/// D/// G/// ///
She whispered grace through the slow falling snow
Em/// D/// G/// ///
Around the city spires, past the evergreens
Em/// D/// G/// ///
That laid the way from my room to yours

Chorus:

Em/// D/// C/// G///
And the words we dared froze fast in the air
Em/// D/// C/// G///
And every hanging season settled there

Interlude 1: Em/// D/// G/// ///

We skated circles to the morning
While the ice stayed strong enough to hold
We sketched a dream in white, warmed our bodies
While the first night's clouds turned gold

Chorus

Em/// D/// G/// ///
In the winter

Interlude 2:

Em/// D/// C/// G///
Em/// D/// C/// G///
Em/// D/// G/// ///
Em/// D/// G/// ///

Remember last year when the river never tried
And two-faced Janus dressed in brown?
I see last night the whispering lady
Left a perfect silent verse on the ground

Chorus (2x)

Em/// D/// G/// ///
In the winter
Em/// D/// G/// ///
In the winter

Outro (same as Interlude 2)
